The Margraves - Primitive Beat

Die Margraves nehmen Ihre Inspiration vom late 1950s sound und upcyclen ihn in neue eigene Songs. Wer glaubte das die Band nach ihrem Debüt Release "On The Warpath" nun das Kriegsbeil begraben hat und auf ruhigere, sanftere Klänge setzt, wird schnell eines besseren belehrt. "Primitive Beat " ist noch wilder, rauer und roher als die erste Scheibe.

Das Lineup mit Ray, Mick, und Bobby Margrave wurde erweitert, mit Mark Margrave wurden noch ein fester Drummer hinzugefügt und bei einigen Tracks spielt Ray Margrave Tenor Saxophone. 14 eigene Songs im wilden late 50s Margraves Sound! Rocks!

Tracklist:

1. She Shakes	8. Desperate Man
2. Just Right	9. Tell Me No Lies
3. Not Guilty	10. Searchin' For You
4. Guilty	11. Primitive Beat
5. The Whip	12. La Matadora
6. That Little Walk	13. Snake Bit
7. Aladdin's Lamp	14. Black Widow

RELEASE NR.: RBR-5853

LABEL: Rhythm Bomb Records

GENRE: Rock'n'Roll

TRACKS: 14

FORMAT: CD deluxe ecopac

The Margraves, take inspiration from the late 50's artists that created a new wild sound and create something new again. From upbeat vocal harmony tracks to untamed and moody instrumentals, The Margraves are filling dance floors worldwide from the US to Europe and Australia all the while bent on continuing their influences' primitive tradition. Primitive Beat, the raw up-tempo second record from The Margraves, combines catchy driving guitar hooks with warm vocal harmonies all set to, you guessed it, a primitive beat! Ray, Mick, and Bobby Margrave belt out vocal harmonies as Ray and Mick push through on their matching guitars, Bobby puts down a solid moving bass line and Mark Margrave pounds out a primitive beat. New to the line-up is Mark Margrave on drums. With Ray's addition of tenor sax, the new sound is even more savage! Fourteen all original tracks will get you shakin' and keep you there!
